

Special Education SELPA Funding Past, Present, Future January 2010

A decorative graphic consisting of three overlapping arrows pointing to the right. The top arrow is light green, the middle one is yellow, and the bottom one is pink. They are positioned above a white rectangular box.

Vicki Barber

El Dorado County Superintendent of Schools

Goals for the day

- ◆ Provide a general perspective of the intricacies of special education funding from a statewide perspective
- ◆ Provide a general knowledge base to better understand and implement your own unique SELPA allocation plan and provide leadership to your SELPA.
- ◆ Highlight areas of current and future focus for SELPA leadership.

Outline of the day

◆ General Overview

- Language of Special Education
- Special Education statistical data
- Income overview
- Expenditure overview

◆ History Lesson and more detail

◆ Allocation Plans & Issues of the Day

Special Education Program Role/CBO Leadership Role

Who needs to know Special Education finances? Is it a program responsibility or a business office responsibility?

Answer = Equal Partnership

Advice to CBOs - The work we do on the financial side IS **NOT all about the numbers**. It is about **relationships**. And to form those relationships, you need to speak the language and learn about the world of special education.

Advice to Program Leadership – The work we do is all about services to students. However, it is critical to understand the financial side of SELPA funding. It is about **relationships and trust** - and those often break down when the topic comes to financial issues.

Special Education

Legal Background/Key Elements

Federal P194-142/IDEA and California State Law

- Child Find - Each public school system is responsible to find children with disabilities in its area
- Free Appropriate Public Education (FAPE) - Each public school system is responsible for ensuring that each child with disabilities is served appropriately, at no expense to the parent
- Least Restrictive Environment (LRE) - Each child is assured of his/her right of education with non-disabled peers to the maximum extent appropriate to the needs of both
- Due Process - The right of parent participation, and challenge, in all aspects of assessment, identification and placement is assured; involves mediation or administrative hearing procedures and complaint procedure in case of disputes
- Individualized Educational Planning (IEP) - The right of a child to an educational program designed to meet his/her individual needs and based on adequate assessment is assured. At age 14 to 16 this includes the development of an Individual Transition Plan (ITP) to provide for transition into the world of work.

Resources

An understanding of the unique language of Special Education is critical to developing strong communication ties between business and program. The student data collection system (and the related options) provides a starting point for becoming informed. The key data collection elements are:

- ❖ What LEA (Local Education agency) is the student enrolled in?
- ❖ What SELPA (Special Education Local Plan Area) does the LEA belong to?
- ❖ What school is the student enrolled in?
- ❖ Where does the student reside? (at home or other placement)
- ❖ What is the student disability? (may be more than one)
- ❖ What is the setting the student is placed in?
- ❖ What services are provided to the student?
- ❖ Who provides the service?
- ❖ Where is the location from which the service is provided?

SELPA

Each district must belong to a SELPA.

Special Education Local Plan Area

District may be a single SELPA or a member of a multi district SELPA.

Each SELPA looks different, but what they have in common is a LOCAL PLAN that determines how they provide services and an ALLOCATION PLAN that determines how they distribute funds.

A Special Education Local Plan Area (SELPA) is the service area covered by the local plan for providing special education services to individuals with disabilities in that area under the state and federal law (EC 56195.1).

Language of Special Education

Primary disability category of the student as identified in the IEP (individualized education program)

Student Residential Status

- ◆ Mental Retardation (MR)
- ◆ Hard of Hearing (HH)
- ◆ Deafness (DEAF)
- ◆ Speech or Language Impairment (SLI)
- ◆ Visual Impairment (VI)
- ◆ Emotional Disturbance (ED)
- ◆ Orthopedic Impairment (OI)
- ◆ Other Health Impairment (OHI)
- ◆ Specific Learning Disability (SLD)
- ◆ Deaf-Blindness (DB)
- ◆ Multiple Disability (MD)
- ◆ Autism (AUT)
- ◆ Traumatic Brain Injury (TBI)

- ◆ Parent or legal guardian
- ◆ Licensed children's institution (LCI)
- ◆ Foster family home (FFH)
- ◆ Hospital
- ◆ Residential facility
- ◆ Incarcerated institution
- ◆ State hospital
- ◆ Developmental center
- ◆ Other

SELPA responsibilities

Program Specialist/Regionalized Services

Program Specialist/Regionalized Services funding (PS/RS) (Education Code 56836.23 & 56836.24)

Program Specialist/Regional Services is funded at approximately \$15 per current year SELPA K-12 ADA. This funding is required by education code to provide SELPA services (outlined below). Pursuant to education code, The SELPA shall ensure that all functions listed below are performed in accordance with the description set forth in its local plan adopted:

- (a) Coordination of the special education local plan area and the implementation of the local plan.
- (b) Coordinated system of identification and assessment.
- (c) Coordinated system of procedural safeguards.
- (d) Coordinated system of staff development and parent and guardian education.
- (e) Coordinated system of curriculum development and alignment with the core curriculum.
- (f) Coordinated system of internal program review, evaluation of the effectiveness of the local plan, and implementation of a local plan accountability mechanism.
- (g) Coordinated system of data collection and management.
- (h) Coordination of interagency agreements.
- (i) Coordination of services to medical facilities.
- (j) Coordination of services to licensed children's institutions and foster family homes.
- (k) Preparation and transmission of required special education local plan area reports.
- (l) Fiscal and logistical support of the community advisory committee.
- (m) Coordination of transportation services for individuals with exceptional needs.
- (n) Coordination of career and vocational education and transition services.
- (o) Assurance of full educational opportunity.
- (p) Fiscal administration and the allocation of state and federal funds pursuant to Section 56836.01.
- (q) Direct instructional program support that may be provided by program specialists in accordance with Section 56368.

Special Education Administrative Unit

A SELPA has one LEA (district or COE) that serves in the capacity of Administrative Unit (AU). There are a number of financial functions handled by the administrative unit. Each AU operates differently but below are some key characteristics of a well operated AU from a fiscal perspective:

- ❖ Strong understanding of special education funding (history and current issues)
- ❖ Proactive support for legislative changes when necessary
- ❖ Understanding of the impact of proposed legislation on the SELPA
- ❖ Early notification to SELPA members of future fiscal impacts
- ❖ SELPA allocation plan (funding) is well documented with a clearly defined governance approval process for updating
- ❖ Allocation plan numbers are updated on a regular basis (no surprises!)
- ❖ Program and business meet together to review the allocation plan data (some form of finance committee to review documentation on a regular basis)
- ❖ CASH flow is prepared and transferred on a consistent accurate basis
- ❖ Reconciliation of amount posted is done
- ❖ Prior year adjustments are carefully analyzed in a timely fashion and funding adjusted accordingly.

Overview of Special Education- Statistics

- ◆ California provides special education services to approximately 678,000 individuals, newborn through twenty-two years of age (2008-09).
- ◆ California provides specially designed instruction, at no cost to the parent, to meet the unique needs of each child with a disability. This instruction is provided in a variety of settings that allow infants and their families, preschoolers, students, and young adults to be educated with their peers as much as possible; that is, in the least restrictive environment (LRE). Special education services are available in a variety of settings that might include day care settings, preschool, a regular classroom, a classroom that emphasizes specially designed instruction, the community, and the work environment.

Comparison of Change

How does your SELPA compare over time?

Change in Disabilities over Time (State/El Dorado)

Special Education Income & Expenditure Overview

Special Education Income Budgeting

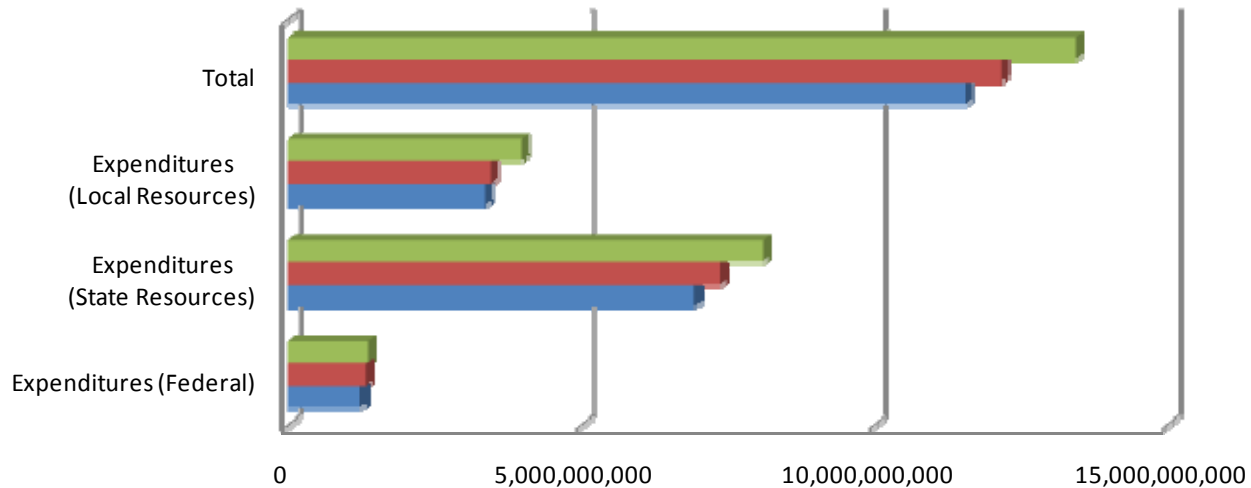

- **As an LEA what amount should you budget for Special Education Income? Varies by each SELPA local allocation Plan.**
 - Each SELPA has unique characteristics of funding
 - Each SELPA allocation plan distributes funds to LEAS in a unique manner.
- **Short version of SELPA funding**
SELPA K-12 ADA x unique SELPA rate + Cost of Living increase + Growth/Decline = Entitlement
Subtract from the Entitlement the amounts received by the SELPA from Federal IDEA/Pl94142 funds and specific taxes allocated to special education and you will arrive at the level of **State Aid**.
- **What is highly likely is that SELPA funding will NOT be sufficient to cover costs and you will have a significant local contribution.**

Federal average is about 10%.

Local contribution varies widely by LEA but state wide average is around 30%.

Expenditures include direct costs, allocated direct support, & indirect.

Special Education Expenditures (Statewide Data)

	Expenditures (Federal)	Expenditures (State Resources)	Expenditures (Local Resources)	Total
■ 2006-07	1,361,893,263	8,107,797,394	3,989,946,951	13,459,637,608
■ 2005-06	1,318,267,955	7,380,623,329	3,477,908,181	12,176,799,465
■ 2004-05	1,247,282,460	6,945,301,949	3,375,892,228	11,568,476,637

More detail on the “Deducts” Federal Funding for Special Education Property Tax

Federal funds (Pl94142/IDEA) allocated to your SELPA are treated as a deduction, similar to the relationship between Revenue Limit funding and property taxes. Some small federal special education grants are outside of this calculation.

Your unique SELPA allocation plan will typically have the same relationship, e.g. an increase in federal funds results in a reduction in state funds. Federal IDEA funds are allocated to the SELPA based on a complex statewide formula involving base year allocations, poverty counts, and pupil counts. Your SELPA will then have their own internal distribution.

Property Tax. County offices have a portion of their property taxes allocated to the SELPA in which they are a member. This is based on historical 1970 ratios. There are additional property tax allocations from “basic aid” counties that roll over into the special education calculation.

SELPA funding

Statewide Target Rate

Basic formula

SELPA K-12 ADA x unique SELPA Rate

Decline at SELPA unique prior year rate

Declining enrollment guarantee (greater of CY or PY ADA)

Growth at SELPA target rate – state portion

State rate is divided into two portions – state/federal (2008-09 show below - more details later)

Statewide Average (Target Rate)	\$	617.90
State Portion	\$	465.44
Federal Portion	\$	152.46

**Sample Funding Summary
Sacramento County SELPA 2008-09
Average rate \$ 627 (line 1)
declining enrollment guarantee (no growth/or decline)**

	2008-09 Summary of SELPA funding (Sacramento County SELPA)	ADA		Rate	Total
1	Prior Year Base	58,140.72		\$ 627.76	36,498,621.79

Summary of elements to date

- ◆ Each SELPA different in terms of funding. Basically traces back to 1979-80 costs of special education reported for your SELPA and your LEA. More details to follow.
- ◆ Each SELPA will allocate funding in a different way based on local decision making that has evolved since 1998 to the present.
- ◆ Federal IDEA funding and Property taxes are deducted from my entitlement to arrive at state aid.
- ◆ As an LEA, if my SELPA gets around \$600 per student, should I expect to get \$600?
 - Probably NOT.
 - Remember that funding is for all services (severe/non-severe) ages 3-22
 - Separate allocation for 0-2 infant
 - A significant % comes off the “top” or on per pupil basis for serving students with intensive services/needs, often served on a regional basis.
 - E.g. emotionally disturbed, autism, deaf and hard of hearing.
- ◆ You can expect that your income from all sources for special education will be less than your expenditures (local contribution).

Special Education Expenditure Budgeting (CSAM, CA State Accounting Manual excerpt)

- ◆ Education Code Section 56205(b)(1) requires that a special education budget shall separately identify the following elements:
- ◆ Apportionment received by the local educational agency (LEA) in accordance with the allocation plan adopted by the special education local plan area (SELPA). (The state funding is tracked in SACS in the resource field in combination with a specific revenue code in the object field.)
- ◆ Administrative costs of the plan. (These costs are tracked in the function field.)
- ◆ Costs of special education services to pupils with severe disabilities and low-incidence disabilities. (This population is identified by the goal field.)
- ◆ Costs of special education services to pupils with nonsevere disabilities. (This population is identified by the goal field.)
- ◆ Costs of supplemental aids and services provided to meet the individual needs of pupils placed in regular education classrooms and environments. (Costs of these aids and services, which may be provided to both severe and nonsevere students, are tracked in the function field.)
- ◆ Costs of regionalized operations and services and direct instructional support by program specialists in accordance with Part 30, Chapter 7.2, Article 6, of the Education Code, Program Specialists and Administration of Regionalized Operations and Services. (These costs are tracked in the goal field for regionalized operations and in the function field for instructional services.)
- ◆ Use of property taxes allocated to the SELPA pursuant to Education Code Section 2572. (Property taxes allocated to the SELPA are tracked in the resource field and identified by a specific revenue code in the object field.)
- ◆ Note: Costs are further delineated by source of funding, federal special education funds or state funding

Special Education Expenditure Budgeting (Accounting Manual excerpt)

Maintenance of Effort (MOE)

- ◆ Funds provided under Part B of the federal Individuals with Disabilities Education Act (IDEA) are subject to a maintenance of effort (MOE) requirement. This is stipulated in Section 1413 of Title 20 of the United States Code, Title 34, Section 300.203 of the Code of Federal Regulations, and Education Code Section 56205.
- ◆ The MOE requirement is that Part B IDEA funds shall not be used, except in specified situations, to reduce the level of expenditures for the education of children with disabilities made by the LEA from state and local funds or from local funds only, below the prior year's level. This test must be met on either an aggregate or a per capita basis.
- ◆ *Translation: You should spend each year at least what you spent last year. And budget for the next year at least what you spent in the current year.*
- ◆ You CAN reduce costs however. If you reduce your special education budget (or expenditures) in a given year, you need to be careful to ensure that you have met the maintenance of effort requirement. This does not mean you can't reduce costs, but you must do so within the guidelines of federal maintenance of effort.
- ◆ There are a series of tests to pass; e.g. fewer students, reduction due to a high cost placement going away or other similarly identified expenditures. Your SELPA must pass an overall MOE test and then your SELPA will have procedures in place to evaluate whether your LEA met MOE.

Maintenance of Effort

- ◆ There are many more details but the important thing to remember is **PLANNING** and **MONITORING**.
- ◆ Each SELPA should have a staff person who is responsible for understanding all the nuances of the MOE formula and monitors the SELPA and each LEA for compliance.

Maintenance of Effort* (gory details)

** excerpts from document prepared by Coalition for Adequate Special Education Funding*

According to CDE, there are three tests to determine MOE. The tests for MOE are not mutually exclusive:

Tests 1A & 1B—Expenditure comparisons—Test 1A compares current-year combined state and local budget to prior-year state and local expenditures, either in total or on a per-capita basis. Test 1B compares current-year local budget to prior-year local expenditures, either in total or on a per-capita basis.

Test 2—Expenditure comparison adjusted for federal revenue increases over the prior year—Local educational agencies (LEAs) may utilize up to 50% of the increase of “new” Individuals with Disabilities Education Act (IDEA), Part B, funds as a reduction to state and local expenditures or local expenditures. The IDEA Act of 2004 implemented the ability of school agencies to utilize the 50% increase in new IDEA funding for the purpose of reducing MOE.

- The state’s MOE forms have not been changed to allow for the calculation of the 50% IDEA increase prior to testing for MOE in the year-over-year expenditure comparison. However, districts are still able to reduce MOE even if they pass using Test 1A or Test 1B. Test 2 should be completed to determine the amount available for MOE reduction.

Test 3 - Expenditure comparison reduced for certain conditions designated by IDEA:

- The voluntary departure or departure for just cause of special education or related services personnel who are replaced by qualified, lower salaried staff.
- A decrease in the enrollment of children with disabilities. The SELPA no longer has the obligation to provide one or more exceptionally costly special education programs to student(s) because they:
 - Have left the jurisdiction of the SELPA.
 - Have reached the age at which the SELPA is no longer required to provide free appropriate public education (FAPE) to the student(s).
 - No longer need the program of special education.
- The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of facilities.
- Test 3 is only used if the SELPA or district was unable to satisfy the MOE test using Test 1 or Test 2.

Maintenance of Effort (more detail)

Given the increase in funds resulting from the IDEA portion of the American Recovery and Reinvestment Act (ARRA), all districts and SELPAs may calculate their 2009 MOE factoring in the adjustment for “new” federal funding. SELPAs and LEAs should develop a process for use of 50% federal funding increase to offset costs that have required a contribution from district general funds.

◆ In order to determine your level of MOE, the following steps are recommended:

Determine if your district meets the eligibility requirements for using the 50% reduction to state and local expenditures or local expenditures under the IDEA Act of 2004 for IDEA, Part B funds.

- There are provisions of IDEA that limit whether an LEA may reduce local effort under IDEA Section 613(a)(2)(C) (34 CFR §300.205). Under IDEA Section 616(a) (34 CFR §300.600(a)(2)), state educational agencies (SEAs) are required to make determinations annually about the performance of each LEA using the following categories:
 - Meets Requirements
 - Needs Assistance
 - Needs Intervention
 - Needs Substantial Intervention
- The Performance Reports that were just received before the end of the 2008-09 school year were only the first test. A second calculation of Significant Disproportionality was recently released, which addressed four areas:
 - Child Find
 - Disability
 - Placement
 - Discipline
- Districts will be considered significantly disproportionate if they fail any one of the calculations listed above. The state has the responsibility to determine calculations. They do not have to use the same calculation as for monitoring the State Performance Plan Indicators.

Maintenance of Effort & ARRA

- ◆ **If you are eligible, use the 50% increase in new IDEA, Part B and ARRA, Part B funds to reduce MOE, as follows:**
 - To determine the amount available for MOE reduction, add the 2009-10 ongoing local assistance grant, and the ongoing preschool local entitlement grant to the ARRA local assistance grant and the ARRA preschool local entitlement grant. These funds are considered to be a 2009-10 entitlement even though some initial funding was received in the 2008-09 fiscal year.
 - For MOE purposes, the ARRA funds received over the two years can only be used in the 2009-10 fiscal year calculation, even though the funding was received over two years (2008-09 and 2009-10).
- ◆ **Identify those expenditures in special education Resource Code 6500 that can legitimately be charged to IDEA ARRA funds (Resource 3313), which will reduce the local contribution on the natural.**
- ◆ **Prepare a plan for the decrease in ARRA funds in 2010-11 and beyond and the impact on the MOE calculation.**
- ◆ **There are two options for using special education funds under IDEA for general education purposes: 50% IDEA increase funding reduction and the 15% total IDEA grant for early intervening services. The IDEA regulations provide specific assistance in determining the interaction between the two provisions.**

Maintenance of Effort & ARRA

- ◆ **If the LEA fails the requirements in Step 1, the state must direct the district to use 15% of the total IDEA and ARRA grants to address disproportionality by providing early intervening services.**
 - The LEA will **not** be able to use the 50% provision for any increase of federal IDEA (including ARRA) funds to reduce its local MOE effort.

- ◆ **If the 50% IDEA MOE reduction is allowed under Step 1:**
 - The “freed-up” local general fund dollars must be directed to activities allowed under the Elementary and Secondary Education Act (ESEA)/No Child Left Behind Act (NCLB).
 - Funds are not transferred from ARRA Resource Code 3313 into special education Resource Code 6500.
 - Expenditures in Resource Code 6500 must be reduced, which in turn reduces the local contribution.
 - In order to maintain the lower MOE, an LEA must sustain the lower state and local expenditures. Otherwise, the MOE will increase on the natural.
 - The 50% should be used as a targeted goal to be able to maximize the reduction of the local contribution. However, this may or may not be attainable depending on the expenditures in Resource Code 6500 and the dollar amount of the 50%.

- ◆ **The basic rule is that ARRA funds can be used in any way that’s permitted under IDEA, Part B funds:**
- ◆ **The funds must be used to support special education-specific program requirements.**
 - This generally includes those expenses associated with individualized education programs (IEPs); however, other program-related costs—such as staff development, equipment, and supplies—are options.
 - LEAs are encouraged to use the funds for one time rather than ongoing expenses, since ARRA funding will not be included in the ongoing IDEA funding allocations in future years.

- ◆ **At this point, funds cannot be used for capital expenses such as facilities or vehicles, but CDE is developing required ARRA approval procedures for these expenditures.**

Short Summary of MOE

- ◆ What I actually end up spending (not budget) in 2009-10 becomes my base for 2010-11.
- ◆ Some decreases are OK (high cost placement goes away, one time capital outlay, high cost staff replaced by lower cost staff)
- ◆ Essentially, the base resets each year based on actual expenditures.
- ◆ But you can adjust the base by 50% of the increase in federal funds.

MOE – Planning & Monitoring

- ◆ **With districts' reducing their overall budgets, it becomes critical for SELPAs to institute more SELPA MOE review points.**

- ◆ **SELPAs should update their internal policies;**
 - What happens when an LEA does not meet MOE? How is that handled in the allocation plan?

 - If SELPA doesn't meet MOE and there is a reduction in federal funds to the SELPA, how is this implemented in the allocation plan?

Sample SELPA

Special Education Finance Committee Suggested Timeline and Content

◆ September/October

- Review Prior year data and any adjustments (June CDE certification)
- Current Year Cash flow Update
- Update of Current Year projections
- SELPA budget document preliminary discussion (includes GF contribution calculation for each LEA in the SELPA)
- Preliminary Maintenance of Effort data review (prior year and current year)
- Identification of any allocation plan amendments needed as a result of legislation or other changes
- Review of current year written allocation plan and discussion about proposed changes for next year.

◆ January/February

- Current Year review formula updated with P-1 ADA
- Next year projections
- Regional program growth requests for next year
- Review of Pupil Counts/FTE data
- Final distribution of PY SELPA budget document including maintenance of effort
- Ideally reach agreement on next year allocation plan
- Mid year review of maintenance of effort (current year) No Surprises!

◆ May

- Current year update (P2 ADA/other factors) and updated projections for the next year
- Other prior year updates (February 28, CDE certification documents)
- Review Maintenance of Effort (current year and next year)

Special Education History

How do we fund these services?

Special Education has a long history of complex funding formulas that have one thing in common: not enough money.

Prior to 1980 Amount per student based on disability

1980's Master Plan. Amount per "class"

1998 All the money goes to the SELPA and the SELPA develops their own distribution rules.

2000's Challenges. Bifurcated Rates, Declining Enrollment, Out of Home Care, Deficits. No solutions yet.

History of Special Education Funding

- ◆ Master Plan Implementation – 1980 (AB 4040/AB 1250/SB 1870). Change from per-pupil funding to “class or unit” funding based on actual costs specific to each LEA (local education agency) (1979-80 costs of actual operation)
- ◆ Problems existed from the start. Significant inequities in funding combined with shortfalls (deficits) in promised levels of funding. But it took 18 years to fix!
- ◆ Funding incentives had an impact on program decisions.
- ◆ Rigid funding requirements resulted in a lack of flexibility in service delivery.
- ◆ Funding based on Units (Classes Operated) assuming that 10% of the K-12 population would be served in a SELPA (Special Education Local Plan Area).
- ◆ AND... your funding today is based on this ancient history and explains why you may be receiving more or less than another district of similar size.

- ◆ **Significant inequity in funding existed from district to district prior to 1998**
 - For example, combined unit rate and support rate for SDC (Special Day Class) funding ranged from \$31,000 to \$81,000 (from 1995-96 data, over \$50,000 difference)
 - Rates based upon 1979-80 base year reported expenditures. And that is primarily why significant inequities in funding still exist today among SELPAs and LEAs

	1979-80 Costs		
	District A	District B	District C
Average Teacher Cost (Salary & Benefits)	27,000	30,000	35,000
Average Aide Cost (Salary & Benefits)	8,000	10,000	15,000
Subtotal	35,000	40,000	50,000
All other reported costs (direct, direct support, indirect)	8,000	20,000	60,000
Total Average cost per class reported	43,000	60,000	110,000
All other Costs as % of Salary/Benefits	0.23	0.50	1.20

Special Education Pupil Count

Incentive in past formula was to identify students as requiring special education services

- Example (prior to AB 602)
- Identify 24 more RSP students
 - You qualified for an additional RSP “unit” in the following year (Resource Specialist Program)
 - If you were under 10% “cap”
 - If state funded growth (no guarantees!)
 - If you also hired teacher/aide

Financial Incentive in the past formula to operate RSP (Resource Specialist Program) instead of SDC (Special Day Class).

District program offerings may still reflect this former decision making.

Simplified J-50 Funding Example Entitlement

J-50 referred to the forms
filed for funding

	A	B	C	D	E
	Units	Class	Description	Unit Rate	Units x Rate (a x d)
1	1.00	SDC/1 aide	Special Day Class (SDC)	51,000	51,000
2	2.00	RSP/ 1 aide	Resource Specialist Program (RSP)	54,500	109,000
3	1.00	DIS	Designated Instruction & Services (DIS)	40,000	40,000
4			Subtotal (line 1,2, 3)		200,000
5		SSR (Support Services Ratio)		0.50	100,000
6			(line 4 + 5)		300,000

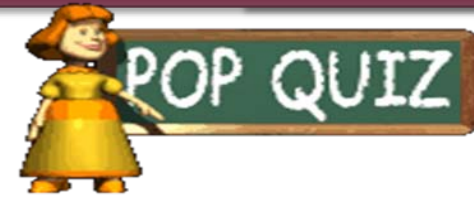

Simplified J-50 Funding Example Source of Funds

7	Entitlement (from above)				300,000
8	IDEA/PI 94-142 (federal funds)			(30,000)	
9	Required Local General Fund contribution			(25,000)	
10	Revenue Limit (SDC ADA x Revenue Limit)			(35,000)	
11	Subtotal other sources (line 8 + 9 + 10)				(90,000)
12	Entitlement less other sources = State Aid (line 7 - line 11)				210,000
13	Deficit (line 12 x deficit rate)		210,000	-13%	(27,300)
14	State Aid (less deficit) line 12 - line 13				182,700

RECAP

15	IDEA/PI 94-142 (federal funds)				30,000
16	Revenue Limit (SDC ADA x Revenue Limit)				35,000
17	State Aid (less deficit) line 12 - line 13				182,700
18	Total all sources (line 15,16,17)				247,700
19	Entitlement		300,000		
20	less LGFC		(25,000)		
21	less deficit		(27,300)		
22	Total Funding		247,700		

Quiz

1979-80 was the base EXPENDITURE YEAR that drove funding rates for over 18 years. If my special education teachers on staff in 1979-80 had, on average, only 2 years experience would you expect my unit rate to be above or below average?

Under the old model of funding, if my LEA was serving under 10% of my population, and I identified more special education students, started a class and hired a teacher, I could qualify for more funds?

- a) Probably YES
- b) Probably NO

... and the Point Is?

All of this ancient history is still relevant because **many SELPA allocation plans reflect this history** as they moved from the old system of funding to a locally developed SELPA funding distribution model.

It explains why each **SELPA has a different rate per ADA** (average daily attendance) and why within a SELPA, **LEAs may have varying rates.**

As we look at our current Special Education funding problems and potential solutions, our **history** can be a **useful tool** to reflect on **what worked** and what did **not work well.**

Legislative Task Force

basic concepts became Assembly Bill 602/1997

- Flexibility.....provide money to the SELPA and let a SELPA determine how to allocate resources to the wide range of services for the 0-22 population of students with special needs
- No IncentivesA formula should move away from being driven by identified special education pupil counts and move to SELPA K-12 ADA as a basis for determining funding for the SELPA's.
- Underlying this was the faulty assumption that all SELPAs are created equal... but that's another story for another day.
- Funding to be based on K-12 ADA, not identified special education pupil count. 1997-98 funding became base for 1998-99 and future years.
- Phase I equalization by LEA to "level the playing field" and smooth out inequities created by previous formula. Phase 2 equalization by SELPA further dealt with some differences.
- Despite equalization efforts, there are still inequalities among SELPAs and among LEAs within SELPAs.

AB 602 Funding Model Starting point

Starting in 1998-99, Special Education funding comes to the SELPA as a **total \$ amount based** on SELPA K-12 ADA times the **unique SELPA rate**.

Funding from 1997-98 divided by 1997-98 K-12 P-2 ADA to determine a rate per ADA for the SELPA. Funding “rolled in”:

- Federal funds - PL 94-142
- Property taxes allocated to special education
- Net State Aid (Preschool-22 and net of deficit)
- Non Public School/Non Public Agency reimbursement dollars*

SELPA develops an **allocation plan** to distribute the SELPA entitlement to LEA members.

* 60% NPS/NPA reimbursement, the 100% reimbursed Licensed children's Institution/Foster Family Home not rolled in

Sounds simple....Develop an Allocation Plan.....

Picture this:

- ◆ \$100 million dollars in special education income for the SELPA.
- ◆ \$150 million dollars in special education expenditures in the SELPA.
- ◆ 10 school districts with 10 different sets of needs, wants, desires and perceptions.
- ◆ Some have been on the losing end of the old formula for years...others on the upper end based on 1979-80 reported expenditures.
- ◆ No rules.
- ◆ Just all come together in a collaborative fashion to determine how to divide up \$100 million.
- ◆ No Allocation Plan is the same.

- ◆ Allocation Plans are always a work in progress. They must adapt to changes in funding, unforeseen circumstances, and changing dynamics within a SELPA.

Back to a few more details...

We talked about what was included in the new formula. A few things not included and funded separately:

- **NPS/A LCI/FFH 100%** funded (Non Public School/Agency, Licensed Childrens Institution, Foster Family Home) Note: became a new funding model in 2004-05 called **out of home care**)
- **Program Specialist/Regionalized Services** funding (goes to SELPA as separate allocation)
- **Infant Funding** (State and Federal 0-2 yrs.) still funded based on unit rates and identified students.
- **Low Incidence Funding.** Small funding allocation based on identified student needs.
- **Revenue Limit for Special Education ADA** is in addition to AB 602 SELPA revenues (small part of the funding puzzle).

Ready to go forward? The History Lesson is over.

SELPAs and LEAs have **different funding rates** because of **1979-80 expenditures** unique to each agency.

Some differences have been smoothed over by equalization funding and SELPA allocation plans. But **differences still exist.**

AB 602 SELPA funding gives **dollars to a SELPA.** SELPA develops allocation plan to determine how to **allocate insufficient resources** to meet the needs of **students with special needs age 0-22** throughout the SELPA.

Looking forward

The next slides will identify additional **parts of the formula** for special education funding and **identify some of the current issues/concerns** that surround them.

- Bifurcated Rate
Impact on COLA and Growth
- Declining Enrollment formula for SELPA and allocation plan
- Non Public School funding and Out of Home Care funding
- Deficits
- Special Disabilities Adjustment
- Charters

Bifurcated SELPA per ADA Rate. New in 2005-06.

- We have discussed that a SELPA receive a rate per ADA that ranges from \$600 to \$1,000. Statewide average about \$600.
- In 2005-06, the Statewide average was divided into two parts (bifurcated); State portion/Federal portion.
- In the past, new federal dollars received by the state were used to pay for COLA/Growth. That became “problematic” from federal view point.
- By bifurcating, the state could use state dollars to pay for COLA/growth on the state portion and federal dollars to pay for COLA/Growth on federal portion.
- Problem solved....but lots of new problems created...primarily because there were limited new federal dollars.
- Legislation has been proposed BUT no solution yet.

Growth/Declining Enrollment

- SELPA Growth is based on **SELPA K-12 ADA** increases and funded at statewide average (@\$465). Special education pupil count does not affect growth.
- If your SELPA is declining, there is a safety net. Funding is based on greater of current year or prior year funded SELPA ADA. The problem is that you may have growing and declining districts. E.g. district A grows 100 students and district B declines 100 students. Growth money for SELPA? -o-. District A funding for the additional 100 students? Your allocation plan will define if the money is taken from District B or if District A receives NO increase.
- If growth is funded at \$465 then you would expect that declining enrollment adjustments to SELPA funding would be \$465? NO. Declines are funded at SELPA **unique rate** – from \$600 to \$1,000 per ADA. Your allocation plan must define how that impacts each LEA.
- Solutions. SELPA Funding should be based on greater of current or prior year ADA by LEA NOT by SELPA. Decline in ADA should be done at statewide average rate. Legislation proposed each year to correct but has not been successful yet.

Charter Complication

SELPA declines by 200 ADA. District A declines by 100 and District B declines by 100. NO loss to District A & B because SELPA is funded on prior year ADA.

But what if a Charter joined the SELPA with 200 ADA. Total SELPA growth = 0. Money for growth = 0. How does the Charter get money for 200 ADA?

**Take away some amounts from District A and B?
Allocation plan must addressed.**

Additional note:

**Charter joins SELPA at \$465 per ADA revenue to SELPA.
Charter leaves SELPA? SELPA base is decreased at higher rate (\$600 to \$1,000).**

Non Public Schools

History Lesson (before 1998-99)

Non Public School Placement **costs were soaring** throughout the state, with the state paying about 60%* of the cost. **Solution.** Roll the state reimbursement cost into each SELPA AB 602 allocation. SELPA **allocation plan** will have **flexibility** to use the dollars to meet the needs of students.

Funding formula prior to AB 602

- Total cost of placement
- Less ADA x Revenue Limit
- State Aid = balance times 70%
- State deficit on funding about 13%
- Therefore, state funded about 60% of the cost.

Cost of Placement		25,000
ADA x RL		4,000
Balance		21,000
State Aid	70%	14,700
State Deficit	13%	1,911
Amount of state aid (or about 60% true funding of balance)		12,789

Current problem is there is typically not enough money. The amount a SELPA receives currently is based on **60% of actual costs from 1997-98.** Many SELPAs have experienced **significant increases** in placements since the base year.

*Note – State paid 100% of costs for foster family home placements and licensed children institutions, but more on that later. 70% NPS/A funded, but deficits resulted in approximately 60% funding.

The **allocation plan** developed by a SELPA determined how the **1997-98** base amount dollars were shared.

Options: a) **Risk Pool** of some kind, b) Dollars **allocated to each LEA** based on 1997-98 costs, c) other SELPA **dollars from base rate** are used to cover increased costs, d) Other?

A Charter LEA joins a SELPA – how does an **allocation plan** address their **relationship** to the NPS issue?

Now Out of Home Care Model (2004-05)

- As noted before, the state continued after AB 602 to fund NPS placements for foster family homes (FFH) and licensed children's institutions (LCI) at 100% level.
- Starting in 2004-05, funds come to a SELPA based on a formula that counts FFH/LCI beds and students. Some hold harmless provisions exist in the formula (33% in 2008-09, 50% in 2009-10, and -0- in 2010-11). The SELPA allocation plan determines how the funds are used to meet SELPA needs.
- Winners and Losers in the formula statewide. Some SELPAs are experiencing increased costs of placements and decline in funding dollars. Other SELPA dollars may be used to address the shortfall based on the allocation plan decision.

Example – one growing/one declining

Out of Home Care Funding

33% phase out of decline in 2008-09, 50% in 2009-10

Out of Home Care Funding				
Education Code Sections 56836.165 - 56836.173		Growing	Declining	2009-10 Estimate
Group Home Funding	A-1	993,962	186,708	
Foster Family Home Funding	A-2	18,528	32,424	
Small Family Home Funding	A-3	0	5,211	
Foster Family Agency Funding	A-4	107,865	23,970	
Skilled Nursing Facility Funding	A-5	0	0	
Intermediate Care Facility Funding	A-6	0	10,924	
Community Care Facility Funding	A-7	2,897	57,940	
Out of Home Care Funding Entitlement (Sum of A-1 through A-7)	A-8	1,123,252	317,177	300,000
Prior Year Out-of-Home Care Apportionment	A-9	1,032,792	1,696,311	1,241,197
Gain (If A-8 => A-9, then A-8 - A-9, else 0)	A-10	90,460	0	
Hold Harmless amount (If A-9 > A-8, then A-9 - A-8, else 0)	A-11	0	1,379,134	941,197
Gain Funding				
Proration Factor	A-12	1.000	1.000	
Prorated Gain Payment (A-10 * A-12)	A-13	90,460	0	
Hold Harmless Funding				
Hold Harmless Percentage	A-14	0.33	0.33	0.5
Hold Harmless phase-out (A-11 * A-14)	A-15	0	455,114	470,599
Hold Harmless amount, less phase-out (A-11 - A-15)	A-16	0	924,020	470,598
Total Out of Home Care Funding (A-9 + A-13 - A-15)	A-17	1,123,252	1,241,197	770,598

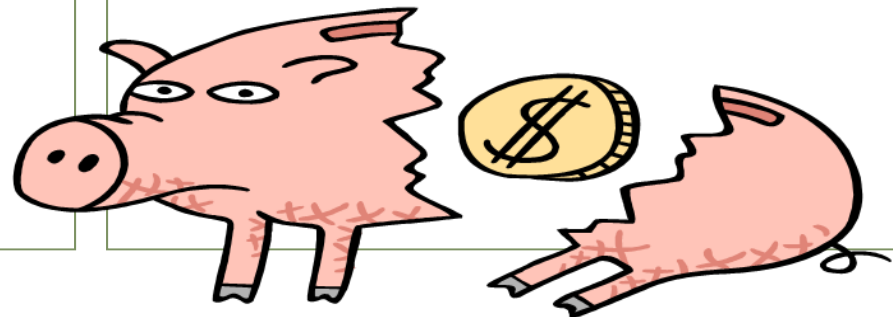

Out of Home Care – hold harmless phased out in 2010-11

- ◆ (4) For the 2009-10 fiscal year, the total amount apportioned to a special education local plan area pursuant to the formula established in paragraph (1) shall be as follows: (A) If the out-of-home care funding amount calculated for a special education local plan area for the 2009-10 fiscal year is less than or equal to the amount a special education local plan area received for the 2008-09 fiscal year, the special education local plan area shall receive the same amount it received for the 2008-09 fiscal year less 50 percent of the difference between the amount received for the 2008-09 fiscal year and the out-of-home care funding amount computed for the 2009-10 fiscal year. (B) For special education local plan areas other than those funded through subparagraph (A), special education local plan areas shall receive the amount received for the 2008-09 fiscal year. (C) For special education local plan areas other than those funded through subparagraph (A), each special education local plan area shall also receive the difference between the out-of-home care funding amount for that special education local plan area and the amount received for the 2008-09 fiscal year for that special education local plan area divided by the sum of the difference between the out-of-home care funding amount and the amount received in the 2008-09 fiscal year for all special education local plan areas times the amount of funds provided for Section 56836.165 in the annual Budget Act that has not been allocated in subparagraph (A) or (B). (5) Beginning in the 2010-11 fiscal year, the total amount apportioned to a special education local plan area pursuant to the formula established in paragraph (1) shall be equal to the amount calculated pursuant to Section 56836.165. If the sum of the amounts calculated pursuant to Section 56836.165 for all special education local plan areas exceeds the Budget Act appropriation for this purpose, the department shall apply proportionate reductions to all special education local plan areas.

Deficit Defined

- ◆ Special Education does not have an ongoing appropriation. If the state estimates the appropriation incorrectly (e.g. higher than expected K-12 ADA) and there are insufficient revenues it results in a deficit.
- ◆ It takes appropriation clean up bill to fix. It also means that when a budget is late, cash flow does not occur until a budget is signed into law.
- ◆ There were several years where this was an issue and we had deficits at the close of a year (some not restored). We have enjoyed several years of deficit free funding.
- ◆ This differs from revenue limit funding, which has an ongoing appropriation.

- ◆ Deficits are unique to each “pot”:
 - Base Amount
 - COLA
 - Equalization
 - Growth
 - Special Disabilities Adjustment
 - Program Specialist/Regionalized Services
 - Necessary Small SELPA
 - Low Incidence
 - NPS (100%) (now Out-of-Home Care)
 - NPS Extraordinary Cost Pool
 - Infant Funding
- Your allocation plan should have a methodology for dealing with potential deficits and how the impact is shared.

Deficit Questions into the future

Will we have deficits as a result of estimation errors? How successful will we be in having clean up legislation passed in these uncertain budget times?

Will we have deficits as a result of legislative action? E.g. mid year reductions and proposed budget action.

How will the deficit be applied? In the past it has been applied to net state aid, which results in great inequities.

	District A	District B	District C
Base Funding	50,000,000	50,000,000	50,000,000
DEDUCTION Property Taxes/Federal Funds	25,000,000	37,500,000	50,000,000
Balance = State Aid	25,000,000	12,500,000	-
Reduction - example only	0.01	0.01	0.01
Reduction based on State Aid	250,000	125,000	-

Special Disabilities Adjustment (SDA)

In 1998, as part of the AB 602 final budget discussions, SDA was born. The premise was that **not all SELPAs are equal** in terms of disabilities. The SDA was an attempt to measure “high incidence” beyond the average.

Incidence multiplier calculated for each SELPA based on **data prior to 1998-99** and has not been updated since. Currently a **limited** number of LEA's qualify. If you had it in the base year, you still have it (see next slide with 2006-07 data). No new count has been done to see if others qualify.

We thought a fix would occur in 2004-05...2005-06...2006-07....

Lots of ideas....but any time you have **winners and losers** when you are proposing to change a long standing formula it is hard to get consensus on the solution. Stay tuned.

SELPA	AU	Rate	2006-07 ADA	SDA Adjust	Est. funding (ADA x SDA)
30-BO Garden Grove Unified	Garden Grove Unified	\$ 591.12	46,507	\$ 136.08	\$ 6,330,000
19-DN Pasadena Unified	Pasadena Unified	\$ 608.81	19,905	\$ 120.69	\$ 2,400,000

Charter Schools as a School of the Authorizing LEA

- ◆ **E.C. 47646 (b)** ...each charter school ...receives an equitable share of special education funding....
 - ◆ **E.C. 47646 (c)** ...each charter school... also contributes an equitable share of its charter school block grant funding to support districtwide special education ...
-lots of SELPA discussion around these two code provisions.....

And adding to the mix, there are additional options based on pilot projects operating in the state:

- ◆ All Charter SELPA (El Dorado County is the AU)
- ◆ Charters as a “subset” of existing SELPAs (several pilots)

The Allocation Plan

○ Funds go to LEAs within a SELPA in accordance with allocation plan

- NO guidelines for what an Allocation Plan should look like
- Based upon SELPA decision making that has evolved since 1998-99
- Allocation Plan should also incorporate Charters
 - Charter may elect to be treated same as school within their sponsoring LEA
 - OR may elect to be separate LEA within the SELPA
 - No discrimination - treat equal to other LEAs IF they elect to become LEA

○ Allocation Plans are varied

But some general statements could be made:

- SELPAs tried to equalize dollars in some fashion
- SELPA tried to move from disincentives
 - Examples:
 - Move to ADA/CBEDS (from identification of Special Education students)
 - Move from “units” to dollar allocation (e.g., SDC/RSP disincentive)

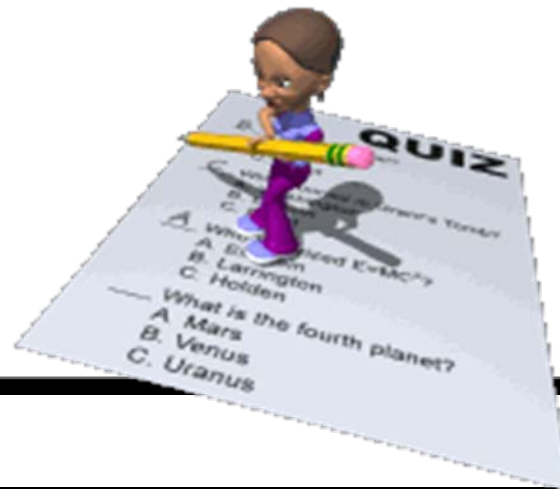

Allocation Plan

“No Two Plans Alike”

- ◆ **During development of a plan, many issues arise regarding basic “philosophies” of the plan:**
 - Should the formula be adjusted for small districts?
 - Should the formula allocate differently between elementary and high school?
 - Are all LEAs deemed equal with regard to their special education needs?
 - Should the formula take into account poverty factors?
 - Should LEAs be held harmless at some level? (e.g., based on 1998-99 funding level)
 - Should funding be based on K-12 ADA per LEA with no incentives to identify students as special education?
 - Should funding be based on identified special education students?
 - Is the plan flexible enough to deal with special needs that may arise?
- ◆ **How is SELPA growth funded?**
 - What if no SELPA growth dollars because declines offset growth? How are new regional programs funded?
- ◆ **How is equalization achieved among LEAS?**
 - If equalization is received, how is it distributed? If no new dollars, how is equity achieved?
- ◆ **How should regional programs be funded?**
 - Allocate funds to LEAs – then each LEA “pays” based on students in programs
 - Prior to allocation of funds to LEAs – determine amount needed to fund regional programs and allocate that first.
- ◆ **NPS/NPA Funding**
 - Remember - No new state funding – amount in base is equal to 1997-98 funding level
 - Should SELPA NPS/NPA funding/costs be pooled?
 - Or allocate to each LEA based on 1997-98 funding level and they are responsible for their costs?

Quiz

- SELPA Allocation Plans are simple to develop if you just follow CDE guidelines:
 - a) True
 - b) False
- Since AB 602 funds flow to SELPA based on K-12 ADA, the allocation plan should distribute to LEAs based on K-12 ADA?
 - a) True
 - b) False

Late Breaking News

Potential settlement "Hughes Bill" Mandated Cost Claim

Behavioral Intervention Plans [Hughes Bill] required LEAs to develop behavioral intervention plans for students. A mandated cost claim (filed by several agencies) was filed to reimburse schools for these activities. The result of the claims is a proposed negotiated settlement. Required 85% of LEAs (representing 92% of ADA) to approve prior to March 1, 2009.

- ◆ However requires an appropriation to fund.
- ◆ NO funding in 2009-10. 2010-11?? 2011-12?

Note: There is prior precedent for a similar action and settlement several years ago. Approved by LEAs and funds appropriated.

Potential settlement "Hughes Bill" Mandated Cost Claim – estimated funding

- Settlement Terms IF funded:
\$65 million as a permanent increase to the AB 602 funding base effective 2009-10. Each SELPA's funding rate will increase by about \$10.924857 per 2008-09 P-2 ADA. COLA and growth will be added in 2010-11 and thereafter, to the extent it is added to AB 602 generally.
- General fund reimbursement for past special education (one time) Hughes Bill costs and is allocated as follows:
\$510 million to school districts at \$85 million per year over 6 years commencing 2011-12 through 2016-17 based on 2007-08 P-2 ADA. This amount translates to about \$14.851782 per unit of 2007-08 P-2 ADA for each of the 6 years;

\$1.5 million to COEs in 2009-10 based on December, 2007 special education pupil count, with no COE receiving less than \$5,000. This amount translates to about \$35.056558 per county special education pupil according to the December 2007 pupil count;

\$6 million to SELPAs in 2009-10 based on December, 2007 special education pupil count, with no SELPA receiving less than \$10,000. This amount translates to about \$8.850014 per special education pupil according to the December 2007 pupil count;

SELPA Relationships & the “numbers”

Successful SELPAs have **strong relationships and communication** among the LEA members. **Trust** is essential.

Within the SELPA, program and business should work closely on the numbers to ensure consistent data.

When LEA members don't trust the numbers, relationships fall apart. LEAs leave SELPAs. LEAs “take back” programs. Decisions may become more focused on finances, rather than what is best for students.

Be vigilant in monitoring special education expenditures as they have a significant impact on the fiscal health of your agency.

Appendix 1 information

Allocation Plan survey data

SURVEY RESULTS
WHAT DO OTHER SELPAs Do? AB 602 FUNDING ALLOCATION SURVEY
THANKS TO CCSESA (CA COUNTY SUPERINTENDENTS EDUCATIONAL SERVICES ASSOC.)
ENORMOUS THANKS TO CARYL MILLER, RIVERSIDE COUNTY SELPA
AND LAST BUT NOT LEAST, PAUL GOLDFINGER, SCHOOL SERVICES OF CA
41 RESPONSES COMPILED
MARCH 2003

Survey Data

Are funds taken off the "Top" for Regional Programs?

◆ 31 YES

◆ 20 NO

- County Regional programs 24
- District Regional programs 12
- Juvenile Court School 8
- Non Public Schools 16
- Non Public Agencies 8
- LCI (county) 8
- LCI (district) 7

Special Provisions for Small Districts?

○ 19 YES

○ 19 NO

○ Many variations

- Direct Service (under 901)
- Under 400 ADA
- Guarantee of base level services
- Emergency aid

Survey Data

Fee for Service or Flat Rate for Regional Programs?

- ◆ 19 Yes
- ◆ 19 NO
- ◆ Many variations
 - Cost of program less income
 - Base rates established
 - Amount per student based on services received
 - Amount per student based on disability (e.g., NSH, SH, RSP)

Balance of Allocation Formula – How is it Distributed?

- ◆ ADA 26
- ◆ Pupil Count 1
- ◆ Poverty Factor 1
- ◆ Combination:
 - 50% ADA/50% Utilization 1
 - 70% ADA/30% Utilization 1
 - 75% ADA/25% Pupil Count 1
- ◆ Others Options:
 - Historical J50 units
 - CBEDS
 - Equalization formulas

Survey Data

If You Use ADA – Is It Weighted?

- ◆ 6 YES
- ◆ 26 NO
- ◆ Notes:
- ◆ Small districts get 5% sparsity adjustment
- ◆ Growth and Equalization adjustments
- ◆ Weighted Needs factor for 25% and 75% on ADA
- ◆ Severe programs receive more

Has Your Funding Been Equalized?

- ◆ 27 YES
- ◆ 8 NO
- ◆ Notes:
- ◆ Used COLA and growth dollars and new augmentation
- ◆ Use portion of COLA dollars
- ◆ Primarily from growth
- ◆ Recaptured from those above average
- ◆ Federal augmentation and mandated cost dollars

Survey Data

How Do You Deal With Growth and Declining Enrollment?

- ◆ **Comments:**
 - Hold Harmless Provisions
 - Use of Prior Year ADA
 - Use of Current Year ADA
 - Many noted this provision
 - Same methodology as Revenue Limit – one year hold harmless
 - Many noted this provision
 - Fund on Prior Year April pupil count

Are School District Revenue Limits Factored Into the Formula?

- ◆ 9 Yes
- ◆ 27 NO
- ◆ **Note:**
 - Misunderstanding of the question by some of the “yes” responses- they responded they used the RL to offset program costs
 - Not typical to see Revenue Limits as part of allocation formula

2008-09 June apportionment sample

1	SELPA Special Education Funding Exhibit	Column1	Column2
2	28-CF Napa County		
3	Napa Co. Office of Education
